

Capstan type C 307 H

Products

Self-braking worm gear drives with electric, hydraulic or even pneumatic motor, available in on-deck or below-deck build types. The on-deck drive is equipped with a waterproof motor for intermittent use. Featuring a cast iron capstan head mounted on a heavy duty planetary gearbox. The entire drive is mounted in a watertight tube frame providing optimal protection from the elements.

Manufacturer code	C 307 H
Medium	Hydraulic
Environment	Marine
Application	Pulling
Series	C
Working Load Limit (WLL) [kg]	6000 kg
Lifting WLL first layer	6000 kg
Speed at first layer	25 m/min
Rope diameter	52 mm
Mass	870 kg
Flow	105 L/min
Pressure drop	220 bar
Neck diameter	405 mm
