

Capstan type C 309 E

Products

Self-braking worm gear drives with electric, hydraulic or even pneumatic motor, available in on-deck or below-deck build types. The on-deck drive is equipped with a waterproof motor for intermittent use. Featuring a cast iron capstan head mounted on a heavy duty planetary gearbox. The entire drive is mounted in a watertight tube frame providing optimal protection from the elements.

Manufacturer code	C 309 E
Medium	Electric
Environment	Renewables
Application	Pulling
Series	C
Working Load Limit (WLL) [kg]	7500 kg
Lifting WLL first layer	7500 kg
Speed at first layer	11 m/min
Rope diameter	60 mm
Motor power S2 duty	15 kW
Motor voltage	400V-AC-3-phase
Mass	930 kg
Neck diameter	405 mm
