

Winch type MR 000H

Products

Personnel lifting winches are mainly built to client specifications and can be executed with a self-braking worm-, helical- or planetary gear depending on the load required. The drive can be either electric, hydraulic or pneumatic. EMCE has supplied manriding systems up to a working load limit of 10,000 kg.

Manufacturer code	MR 000H
Medium	Hydraulic
Environment	Oil and Gas
Application	Personnel
Series	MR
Working Load Limit (WLL) [kg]	on request kg
