

Winch type **PW 550 E**

Products

AW winches are designed to position and hold accommodation and ship-to-shore ladders and ladders between vessels and offshore installations. Constructed in accordance with SOLAS requirements for international shipping, the range features a dynamically and statically self-braking wormgear and emergency hand crank. PW winches are used to lower and lift the pilot ladder on board of seagoing vessels, EMCÉ has one standard design, PW 550, that has been supplied to several dredging vessel fleet owners.

Manufacturer code	PW 550 E
Medium	Electric
Environment	Marine
Application	Lifting
Series	PW
Working Load Limit (WLL) [kg]	550 kg
Number of layers	3
Lifting WLL first layer	550 kg
Speed at first layer	12 m/min
Drum capacity top layer	13 m
Holding force	2000 kg
Mass	1600 kg
